

CAMERATA BOTTLE LIST

MAY

MAY THE FORCE COME FROM THE WINE

May brings flowers so check out all the super floral Bubbles, White Wines, Rosés and Light Reds... ask your favorite winetender for a recommendation!

We are ready for Houston summer with several crushable, chillable, fruity Reds so make sure to run through page 8. We are also rockin' a super global Bubbles list right now...from Texas to Serbia to Sloveniato Brazil to Hungary to Argentina, we are crusin'. If you are more of a traditionalist, don't worry, we have plenty of Italian and French bubbles too!

If you aren't in the mood for wine, there are several new Sakes on page 11 as well. Most of them are by the glass if you want to try one before you dive in. Also, on the back of the bottle list are some exciting new beers...the Estonian Gose is the perfect springtime beer, but for a real treat, ask to meet Marcel!

RADIKON

In the Friuli region of Northern Italy, the history of skin contact wines goes back hundreds of years. Radikon is an exemplary representation of beautiful winemaking that can come from this area where tradition trumps national borders. Radikon is not necessarily a traditionalist however. Rather than using ancient vinification vessels such as anfora (terra cotta clay vessels), all of their wine is vinified in Slavonian Oak barrels (famously used in Piedmontese wines as well). These funky and fun gems have a cult following so try 'em out and see what the fuss is all about!

13C. <i>Jakot</i> , Tocai Friulano, Venezia-Giulia, Italy, 2018 (500ml)	95
14C. <i>Slatnik</i> , Chardonnay/Tocai Friuliano, Venezia-Giulia, Italy, 2021, (750mL bottle)	105

RED WINES

LIGHT-BODIED

What makes a red wine light in body? A million different things including but not limited to cooler climate, thin-skinned grapes, carbonic maceration and tannin extraction (these wines don't have much) Many of these are even more outstanding with a slight chill!

TAKACHIYO: NAMAZAKES

Chapter 10 Series

Namazakes are unpasteurized, meaning the enzymes are still alive in the beverage and so it must be kept and served cold. Namazakes are one of the most exciting categories of sake styles as they are vivacious, complex, usually off-dry and just a bit more exciting than most of the other sake styles...

The Takachiyo Namas are extremely rare and highly sought after Namazakes that focus on single rice varietal strains; a very uncommon practice among Sake producers. Only a few cases of each make it to Texas each year!

M A D E I R A

A Camerata tradition has long been to have an expansive selection of quality Madeira wines - Many people are only familiar with Madeira as a cooking wine but it is indeed so so much more. This fortified wine is basically the Superhero of wines...it is impervious to time and maintains its acidity for centuries. This is the moment you should ask yourself...when was the last time you had something from 1907 in your mouth?

D'OLIVEIRAS:

Founded in the 1880's and still family owned today, D'Oliveira is one of the most astonishing companies on the island of Madeira. Of all the producers on the island, they have the greatest library of old vintages, dating all the way back to 1850. Their wines have powerful aromatics, great lushness and viscosity, incredible structure, and a tangy character that is essential to great Madeira.

M E A D

Mead is a unique class of alcoholic beverage characterized by three ingredients: fermented honey, water and yeast. Mead is the first known alcoholic beverage consumed by mankind and is believed to predate wine by nearly three thousand years. Today, mead is often referred to as 'honey wine' because the process of making mead and wine are so similar. The key difference is the use of honey rather than grapes as a source of sugar.

GARAGISTE MEADERY: Tampa, Florida

Garagiste started with a couple of home-mead makers back in 2015, before most people in the country had even heard of mead, let alone tasted it. The owners are committed to using only the best honey, flavored with the finest fruits available and is among the most respected meaderies in the world!

MAKE YOUR OWN CREAM SHERRY!

What is Cream Sherry you ask? Well...there's no cream involved! It is a term that references a blend of Oloroso Sherry and PX Sherry that is therefore somewhere between a nutty/oxidative sherry and a sweet/decadent sherry

When you create your own Cream Sherry...you get to determine the final sweetness of your blend!
